

NEWS RELEASE

Number: 16/16

8 February 2016

WISH Opens its Doors

The waiting is over for Herefordshire residents because WISH has arrived in the county!

Herefordshire's first ever wellbeing information and signposting service, opened on the 1st February at its hub in St Peter's Street, Hereford with the most comprehensive range of information about all sorts of things which can help you feel happier and healthier.

Information held in the WISH directory, includes everything from Advocacy to Zumba as well as comprehensive information about how to access care and support from Children's or Adult's Services in the county.

As well as the full-time service in the city there are regular WISH pop-ups across the county for those without the means of getting into Hereford and if you don't want to speak to anyone the WISH directory is also available online at: www.WISHerefordshire.org. There's no need to register to use the directory, simply visit the website and follow the easy instructions to find the information you're looking for.

The WISH directory includes information on living with a disability; how to access advice about financial and legal matters; and the range of care options available in the county. As well as this type of information the WISH Directory lists over 500 clubs, societies and organisations and is growing daily.

WISH, which is being delivered by Herefordshire charity Services for Independent Living (SIL) has been developed in partnership with Herefordshire Council in response to the local authority's duty to provide information and signposting to support people's independence and wellbeing under the Care Act 2014.

If you'd like to find out more about WISH and how it can help signpost you and your family to a healthier, happier life come and speak to the team at our Hereford Hub, or call us on 01432 383880 for details of a pop-up near you.
